# **HUYNH BA THANH**

## Front-end Developer

Use 0935664263 ■ thanhhuynh190303@gmail.com Ø github.com/thanhhuynh1903 • Thu Duc district, Ho Chi Minh City

### **INTRODUCE**

I am a Frontend Developer with 1 year of experience building responsive, user-friendly interfaces. Skilled in React, Next.js, and Tailwind CSS, with hands-on experience in state management, REST APIs, and modern frontend tools. I am always eager to learn, solve challenging problems, and create seamless digital experiences for users.

### **PORTFOLIO**

https://thanhdev-portfolio.vercel.app/

## **SKILLS**

Languages	TypeScript, JavaScript
Technology	ReactJS, NextJS, Redux, Zustand ,React Native, Tailwind Css, Nodejs, ExpressJS, MongoDB, MS SQL Server.
Tools	Git, VSCode, Android Studio, Figma, Postman, Motif, ClickUp, Trello, Jira, DBeaver, Genymotion, Expo Go, Netlify, Vercel.
Other Skills	English - Intermediate, Vietnamese - Native.

## **EDUCATION**

#### FPT University - HCM Campus

2021 - 2025

Software Engineer - Major in Information Technology

### **WORK EXPERIENCE**

**FPT Software** Jan 2024 - Apr 2024

#### Front-end Developer Internship

- Improved UI/UX of React.js web apps by fixing reported issues, enhancing user experience.
- Participated in Agile ceremonies, contributing to sprint planning and progress tracking.
- Wrote and ran manual test cases to verify bug fixes and feature alignment.
- Collaborated with QA/dev teams to ensure UI responsiveness and cross-browser support.

## **CERTIFICATE**

User Experience Research and Design	September 16, 2024
• UX Design: From Concept to Prototype	September 14, 2024
Project Management Principles and Practices	May 21, 2024

## **PROJECTS**

## Everfresh - Everfresh Management Platform

Name of customer	Students of HCMC University		
Description project	Developed a modern management platform with React, Vite, and REST APIs. Integrated analytics (Chart.js), dynamic tables (MUI), secure auth (Supabase), and CI/CD deployment on Vercel.		
Team size	3		
Position	Frontend developer		
Responsibility in project	<ul> <li>Created a responsive frontend with React, MUI, and Tailwind.</li> <li>Implemented state management, form validations, and interactive charts, while ensuring seamless deployment and collaboration within the team.</li> </ul>		
Technology description	React, Vite, MUI (Material UI), REST API, Supabase, Chart.js, Formik, Yup, Axios, Quill, Sass, Day.js, JWT, XLSX, Toastify, Vercel.		

# SRCoach - Smart Running Coach application

( Aprl 1, 2025 - June 6, 2025 )

Name of customer	Students and fitness enthusiasts seeking personalized training and health tracking.		
Description project	Developed a cross-platform fitness app with React Native and TypeScript, featuring real-time health tracking, AI-based risk analysis, chat, and interactive charts for personalized training and performance monitoring.		
Team size	4		
Position	Frontend Developer		
Responsibility in project	<ul> <li>Developed mobile app interfaces using React Native and TypeScript and using third-party.</li> <li>Integrated APIs for real-time health data synchronization.</li> <li>Created and implemented custom navigation, state management, and chart displays for user activity.</li> <li>Ensured seamless cross-platform performance and collaborated with teammates to review code and resolve bugs.</li> </ul>		
Technology description	React Native, TypeScript, Firebase (Firestore, Cloud Messaging), Health Connect API, AI Health Risk API, Socket.IO, Zustand, Axios, Chart Kit, Maps, React Native Paper, AsyncStorage.  Source code: https://github.com/thanhhuynh1903/srcoach/releases/tag/v0.0.1		

# Cosmetic Shop - Web e-commerce

( Jan 1, 2025 - Mar 15, 2025 )

Name of customer	Personal		
Description project	Developed a responsive e-commerce website with React, TypeScript, and Tailwind CSS.  Integrated Zustand for state management and added animations for a seamless user experience across all devices.		
Team size	1		
Position	Fullstack Developer		
Responsibility in project	<ul> <li>Created clean, user-friendly interfaces using Tailwind CSS, AOS, and Framer Motion.</li> <li>Integrate real-time email sending when order is successful</li> <li>Implemented state management using Zustand for scalability and maintainability.</li> <li>Optimized site performance and responsiveness across mobile, tablet, and desktop.</li> </ul>		
Technology description	React, TypeScript, Tailwind CSS, Zustand, Framer Motion, AOS, Swiper, React Router, EmailJS Live: https://bestbeauty.netlify.app/
